AT WORK ON TRADES TRIPS

Hamilton Excursion Delayed so as Not to Interfere With the Fair.

So as not to interfere with the fair at Hamilton, which will be held May 23 and 24, the Waco trades trip to that place will not be held until June 12, exactly two weeks after the trip to Dallas May 28.

The details of the trip have not been worked out, but the schedule, equipment and the like will be decided upon at a near date. Nor is there yet anything definite on the fourth and probably the last excursion to be taken. It will either be over the Santa Fe west or the Katy to Cleburne, inclusive of wayside stations. Sentiment seems to be for the former territory.

It is expected that the schedule committee will take action today on the time card for the Dallas excursion that was prepared yesterday by Manager Dillon of the freight bureau. With this done, the committee will be at liberty to perfect the other arrangements.

Benefit Lecture.

Tonight at 8:30 at St. Paul's, Dr. Hubert D. Knickerbocker will deliver a benefit lecture, the proceeds of which are to be used in the construction of a \$50,000 church for the colored Methodist in Waco. A general invitation is extended to the public.

Senator La Follette amendment for public hearings. Republican leaders accepted this proposal from Chairman Simmons after Senator Stone had attempted to force an immediate vote by moving to lay all amendments to the Simmons motion on the table. This he withdrew at Senator Simmons' request.

The sugar schedule was again the subject of enlivened debate, Senator Randall of Louisiana, answering the claims of Senator James of Kentucky that the Democratic platform warned Louisiana to expect free sugar. Mr. Randall submitted records in an effort to show that the party was not committed to free sugar.

The senate resumed consideration of the tariff in the day.

Senator Thomas of Colorado, discussed threats of business depression if the Underwood bill became a law. "No panic in the history of this country was ever caused by an attempt to revise the tariff," he said.

The senator aroused the Republican side by reading a magazine article which alleged that the panic of 1893 was manufactured by banking interests, which desired the repeal of the Sherman silver purchase act.

According to the senator, circulars were sent out from New York to banks, demanding that they retire part of their circulation and call in a large part of their loans, with the object of forcing congress to pass this legislation.

Senator Norris and Root expressed surprise that such a circular had been sent, and asked if it was signed.

"I didn't give any name because none appeared here," said Senator Thomas in reply to Mr. Root. "The senator knows better than I do, where it came from."

Senator Root surprised, Senator Root said he was surprised that the senator from Colorado should make such "absurd charges in the senate, based upon a communication apparently unsigned."

The senator from Colorado does not have to take instructions from the senator from New York, nor anyone else," said Senator Thomas. "He is responsible to the people of his own state. He does not care whether the senator thinks this is absurd or not."

Senator Thomas refused to give \$50 for the name of any Vermont banker who received this circular, declaring he was in a position to affirm that no banker in Vermont had ever received it. Senator Smoot said he could say the same thing for the bankers of Utah.

Senator Lane came to the assistance of his Democratic colleague by stating he did know a banker who received such a communication. He refused to give his name.

As a result of this circular, Senator Thomas said, banks did retire circulation and did call many loans and laid the basis for panic.

Mr. Smoot produced figures from the statistical abstract showing that circulation of national bank notes had increased steadily from 1890 to 1900.

Mr. Thomas declared the panic of 1897 had been manufactured by the Standard Oil company or allied interests, to get through the Tennessee coal and iron "deal" and to embarrass the president of the United States.

Senator Randall resumed his argument against free sugar by advancing the view of the people of Louisiana, that they did not rely upon that part of the Democratic platform promising the repeal of the tariff on sugar.

He passed a free sugar bill—but upon the "business plank," which stated that no legitimate industry should be destroyed. He quoted at length from campaign speeches of President Wilson, and maintained that in no speech had the president proposed free sugar.

The senator read a letter prepared by Representative Brounard, a senator-elect from Louisiana, who was a member of the sub-committee of eleven of the platform committee at Baltimore, contending that the platform never indicated the Underwood free sugar bill of the last congress nor had the party endorsed it.

factory settlement of the difficulty is confidently expected in that capital, was welcomed in official circles here.

This was taken to mean that the negotiations are at least assured of peaceful and orderly progression, and that there is little likelihood of an evolution of feeling that might result in a rupture of diplomatic relations.

FEW COTTON TRADES

CAUSED BY CLOSING AT LIVERPOOL AND MIXED CROP REPORTS.

Cotton is steady at a flat decline of from one to two points.

New York, May 15.—With Liverpool closed for the remainder of the week and with crop news more or less conflicting, there seemed little disposition to trade actively in the cotton market today, and prices fluctuated within a narrow range. The close was steady at a flat decline of 1 to 2 points.

The market opened steady at a decline of 1 point on January, but generally a point or two against the closing figures of yesterday in response to relatively steady cables.

Buying was not active, but there was some scattering demand from yesterday's orders. The market was depressed at the close by the weather report that did not show more rain out of the river and that the western low barometer was working rather far northward to produce important precipitation in the west.

Prices were 2 to 3 points higher on this report, but the official forecasts were for showers over the greater part of the eastern belt, while a rain area was reported to be forming in the southwest, and this prospect for more favorable weather conditions brought in a few selling orders on the advance.

Closing prices were at practically the lowest of the day.

A prominent traveling crop expert summarized the start of the crop as favorable on the average, but estimated that replanting will not be more active this year than in other years or to 1911.

Some rather more favorable reports also were received from cottoning centers, but they were not given much weight with the lack of the day's trading revealing continued nervousness and a feeling in some quarters that good rains in the eastern belt may be necessary to relieve apprehensions of an indifferent or possibly an unfavorable government condition report on June 1.

New Orleans, May 15.—Cotton held a steady underdone today but prices did not move far one way or the other. A small net advance in the early trading and a small net decline later, in which the crop did not show was the cause for the day.

Reports from the belt were conflicting and there was little on which to base a general conclusion.

On the opening the market was steady and prices were 1 point down to 1 point up, compared with the close of yesterday.

Liverpool was somewhat higher than last, but buying of this sort was only moderate, with prices steady.

WHEAT GOES HIGHER

BUYING BY NEW INVESTORS BRINGS ABOUT A RALLY.

Russian Crops Promise Large Returns. Bears Able to Force Slight Reactions.

Chicago, May 15.—Buying by new investors brought a rally today in wheat. Despite early weakness, the market closed steadily at prices ranging from last night's level to 1/2 advance.

Corn finished a shade off to the up, with a gain of 1/4 to 1/2 and provisions were dearer by 1 to 1 1/2.

The opinion of many traders, selling of wheat has been considerably overdone. This judgment was confirmed about midway when purchasing became aggressive and shorts hurried to cover.

The bulls were encouraged by military sales of 150,000 bushels and by sales of 500,000 bushels to eastern export houses. Besides, clearance at the seaboard were heavy, arrivals at landing terminals were light, the season in Canada said to be two weeks late and the Pacific coast states were threatened by radical deficiency of moisture.

Previous to the upturn quotations had been depressed by statements that Russian crops promised huge returns and because of excellent weather and soil conditions east of the Rockies.

Bears were unable to force more than slight reactions after the bulls got in.

Corn displayed firmness, the result of country holders declining to sell at a record level.

Cable strengthened on reports that rains in Illinois and Indiana did not extend as far south as expected.

Producers and exporters appeared to have taken to the buying side in provisions. May receipts were meagre.

STOCK PRICES DOWN

NEW LOW RECORDS REACHED, BUT NOT IN ACTIVE STOCKS.

Cotton Oil Has Deep Break—Canadian Pacific Is Again Pressed for Sale.

New York, May 15.—On a small business prices were scaled down again today. Nearly a dozen new low records for the year were reached, although some of the active stocks were in the list.

The day's news did not affect speculative conditions materially and traders were disposed to hold off before taking any aggressive position.

The obvious lack of demand for stocks induced bear traders to sell, but they attacked the list half-heartedly and movements were narrow and irregular until the final hour, when the market turned downward more decisively.

While selling appeared to be largely for the short account, there were signs of liquidation in various quarters and some severe losses.

The slump in the fertilizer group was heavy. Cotton oil, the weakest of the group, broke over 4 points.

Canadian Pacific was again pressed for sale.

The thinness of the market was illustrated by the experience of brokers who were called upon to dispose of small blocks of inactive stocks. In some instances they were unable to make substantial concessions to find a buyer.

A case in point was Railway Steel Spring preferred, which broke nearly seven points on a single sale.

C. and O. turned strong on the announcement of an extra dividend of 4 per cent of Montreal Valley, a controlled line. C. and O. sold off sharply, however, when it was made known that the regular dividend had been declared.

The action of the New Haven board on the dividend rate was not taken until after the close of the market, so it had no effect on trading.

Bonds worked easier again. Total sales, par value, \$1,000,000.

United States bonds were unchanged on call.

AMONG WHOLESALE

PROSPECTS OF RAIN HAD QUIET-ING EFFECT ON BUSINESS YESTERDAY.

Confidence is General, However, and No One Feels the Least Uncertainty.

Somewhat threatening weather and news of heavy rains to the north of Waco, yesterday had a quieting tendency.

Inquiry, however, in all lines remains strong and there is no indication of a let-up.

The volume of business still remains strong, and the psychological effect of a good grain crop is keeping confidence strong throughout the country.

The money market, as usual, is showing a tendency toward stiffness as the demand for money necessary to move the coming grain crop is beginning to be made, but there is nothing at all panicky about this.

Produce dealers report full stocks of everything obtainable on hand.

Strawberries continue plentiful and the demand equally strong.

New potatoes are selling at \$2.25 for reds and \$1.75 for whites, but it is believed by dealers that next week will witness heavy receipts from South Texas and much lower prices.

Local gardens are cutting into the vegetable situation now, and will probably have a strong influence on the market for the next few weeks, or until the dry season sets in—provided there is a dry season.

The Herrick Hardware Co. broke dirt yesterday morning for their new building and will be occupying an immediate addition to the old building.
